

# Recent Changes in Temperature and Carbon Dioxide Levels

## Analysis of Global Annual Temperature

## Analysis of the recent Carbon Dioxide increase

What occurred in the late 1800's, early 1900's., and how did it cause a significant increase in CO<sub>2</sub> emissions?

Task

Annotate this map to give reasons for the differences in the emissions of Carbon Dioxide into the atmosphere, between different countries. Think about the countries level of development. Discuss atleast 8 different countries, 4 MEDC and 4 LEDC.
