

KS2 – Summary of Climate and Weather Links

## **Human and Physical Geography**

- describe and understand key aspects of:
  - physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle

## **Science – Year 4**

- identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.
- They might observe and record evaporation over a period of time, for example, a puddle in the playground or washing on a line, and investigate the effect of temperature on washing drying or snowmen melting.
