

Photostory

Creating a Story Board

Select **Begin a new story** then click **Next**

Importing Pictures

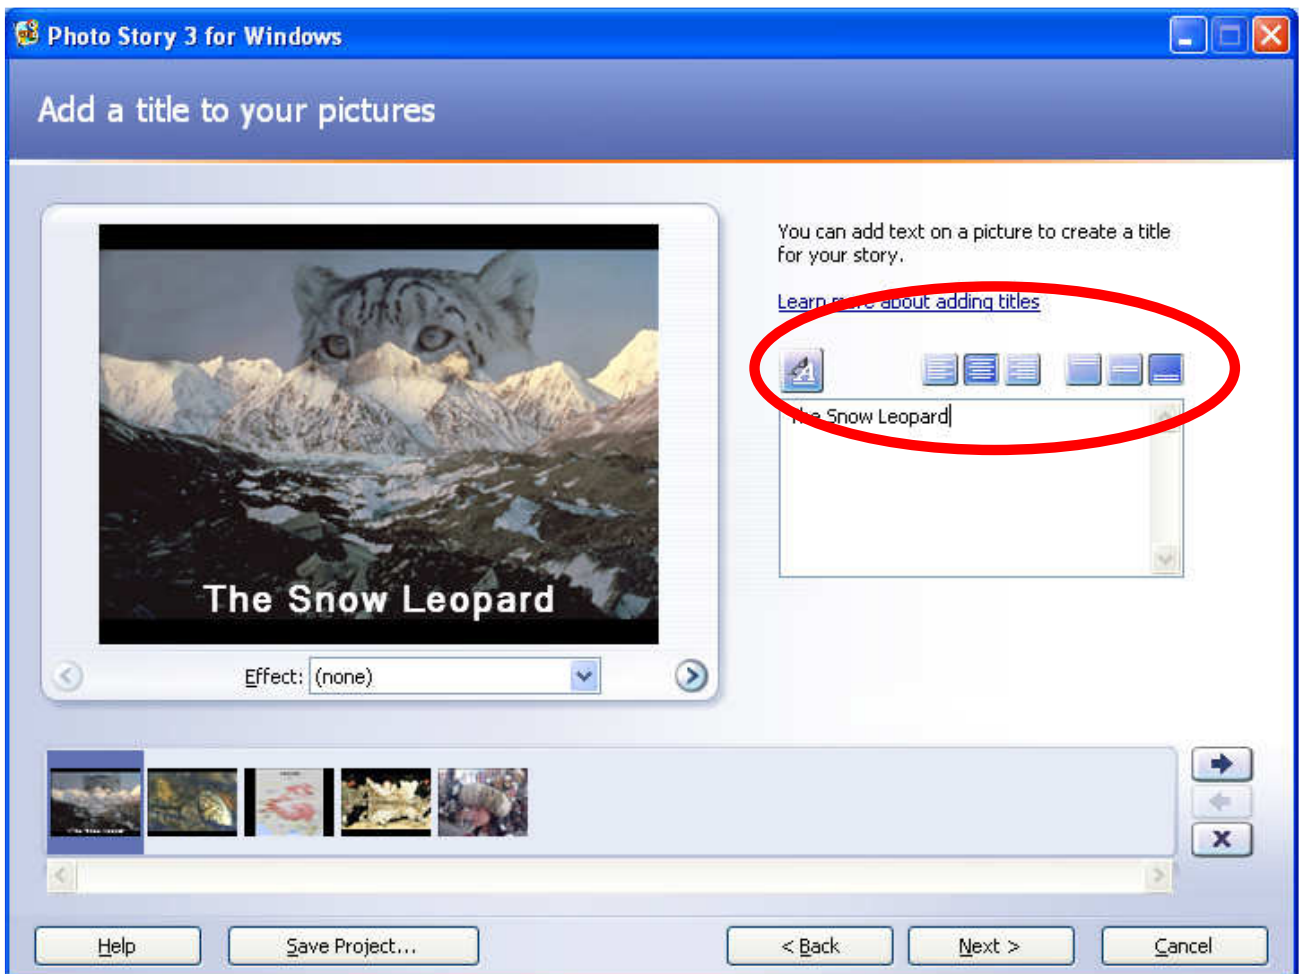

Click the **Import Pictures...** button to locate the picture you would like as part of the Story Board.

Once imported you can re-sequence them by highlighting the image you wish to move and dragging it with the mouse.

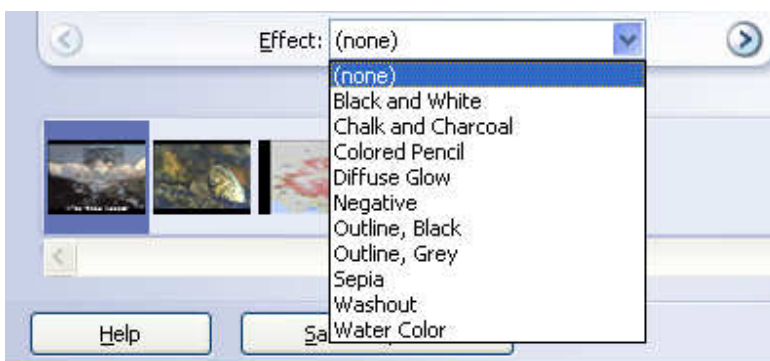

When you're happy with the sequence of the images click **Next**

Adding Text

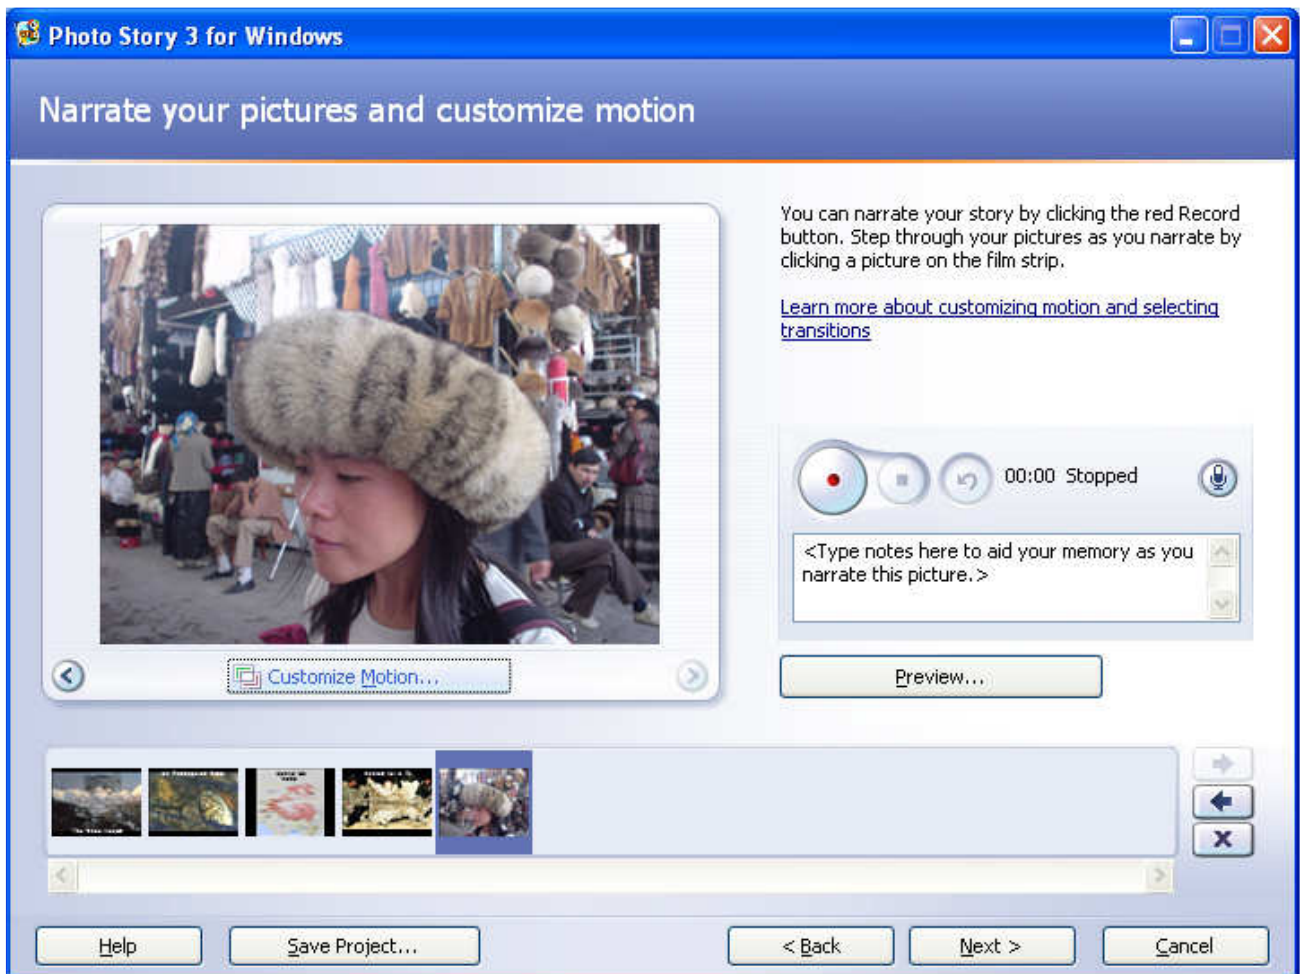

Add text to images as appropriate. Use the **Styles and Formatting** button and the **Justify** buttons to format and position the text.

The **Effect** options can be used to alter the image

Narrating the Story

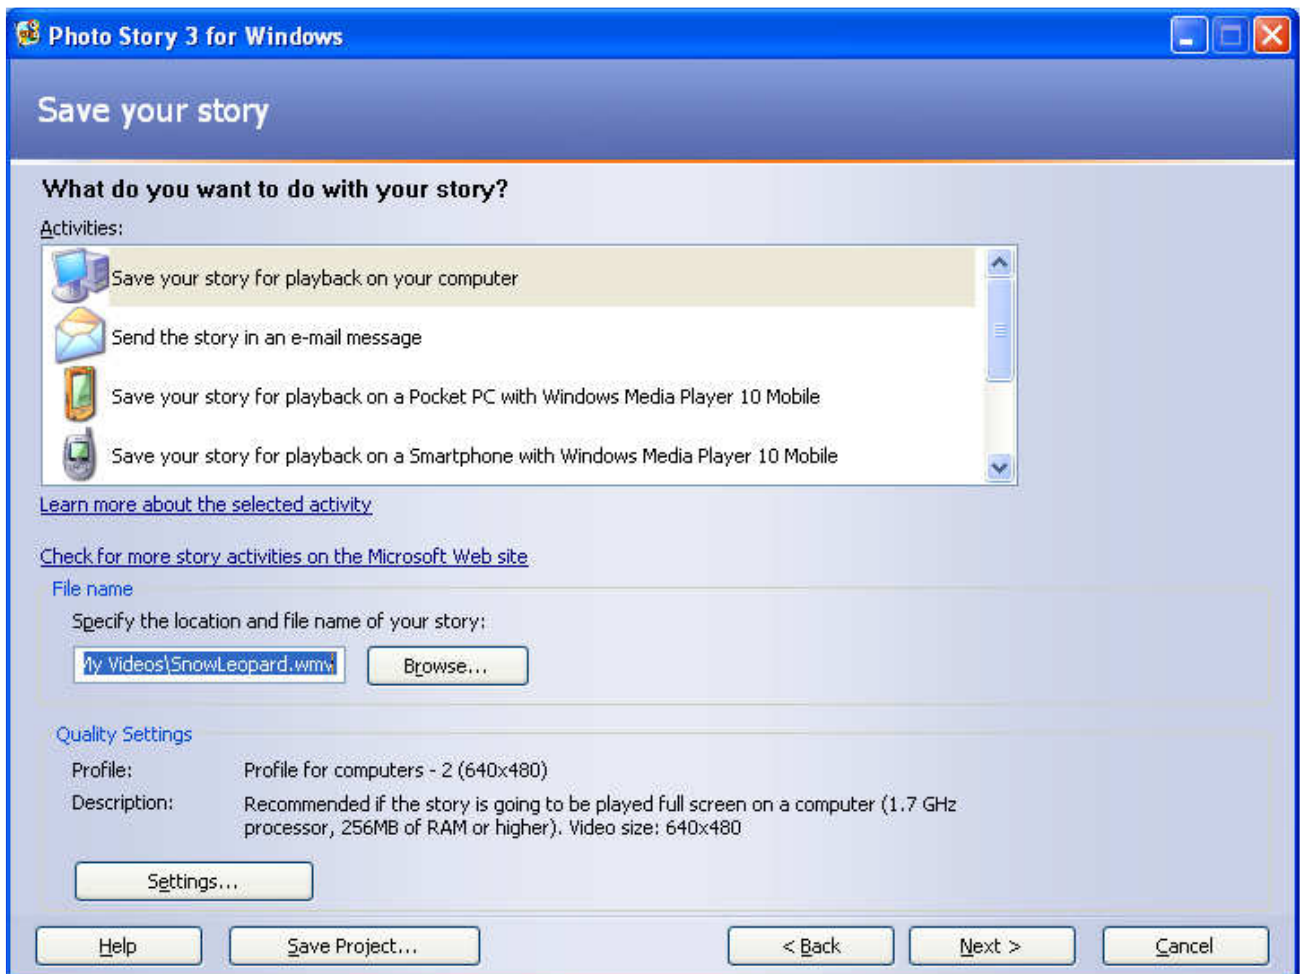

Click the **Preview...** button to view your story board so far

Click the **Customise Motion** button to alter the number of seconds to display each picture.

To Narrate the story, select an image and press the record button. Press stop when finished. Repeat this for each of the pictures you would like Narrated.

Click **Next**

Saving the Story

Select the location to save your story board and click **Next**

You can now view the story by loading the file into Windows Media Player
