

# Anticyclones, Depressions and Fronts

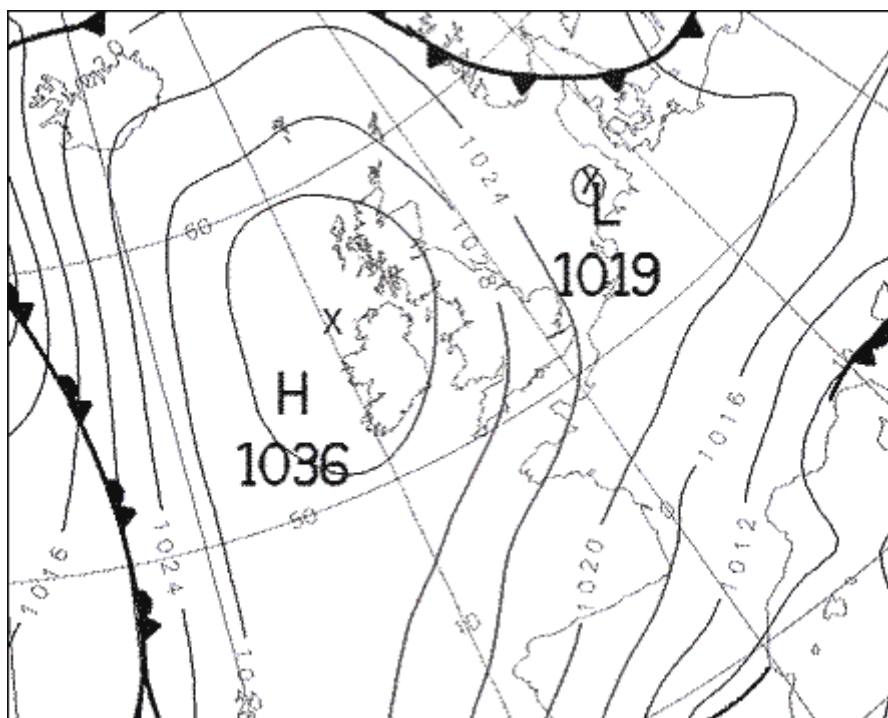

## Worksheet 2 - Anticyclones

If working on a PC, print out a copy of this page. The synoptic charts below show two anticyclones affecting the UK at different times of year.

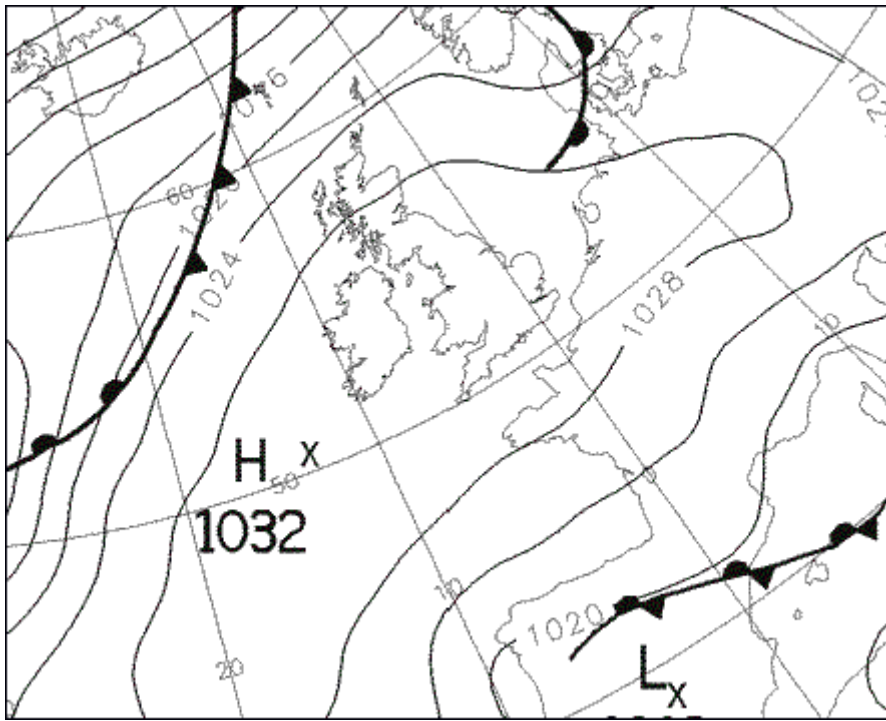

Describe the differences in weather which might be experienced in Birmingham between the two charts. Make sure you include temperature, weather and cloud cover.

Explain why these differences might occur.

**Synoptic chart for 10 January 2003**

**Synoptic chart for 3 September 2003**

**What to do next**

Now you can complete go on to Part B - Fronts.

Reproduced with the kind permission of the Met Office
